GTECH™

# GLORIOUS CLASSICS DELUXE

EDITION 16

EXPERIENCE THE WEALTH OF CHOICE!

All games below are included in the GLORIOUS CLASSICS game suite!

The brand new game type **TENSION SLOTS** adapts these successful core game titles to a 10-line version: bonus features:

**TREASURES OF THE PYRAMIDS™** is now available as a 10-liner! Players will love the *Stacked Symbol Feature* where in each spin, one symbol appears stacked on all 5 reels giving the players more chances to win.

In **GOLDIFY™** players can “goldify” symbols by touching them. The base games’ volatility depends on the player selection and so does the bonus.

**SPHINX WILD™** features a stacked symbol approach combined with the *Golden Mask Surrounding Wild Feature*. Pyramid scatter symbols trigger the *Free Game Bonus* selection screen.

High wins are guaranteed in the Egyptian-themed thriller **MAGIC PHAROAH™** now available as a 10-liner! The highest symbol, the *Pharaoh*, spreads his influence to his left and right for more wins.

**THRILLER JACKPOTS** features this proven top-performing **CASH FEVER™** standalone progressive title:

In addition to the **SUPER PLAY™** mode, **POSEIDON™** offers the **WIN ONE WAY/WIN TWO WAYS** play-mode. The *Poseidon* pays double on each position. During the free games, all wins are additionally multiplied by 2. Three **CASH FEVER** symbols anywhere trigger the **CASH FEVER Bonus**.

**CLASSIC SLOTS** features the following traditional volatile, low-line games:

In **BRILLIANT FRUITS™** all wins are paid left to right only. This classic slot game pays the top award for 5 *Diamond* symbols on a payline and has stacked symbols on all reels.

**I LOVE FRUITS™** is another classic slot game with all symbols appearing stacked except the *Heart* symbol. Therefore the game offers good chances for very high wins.

**JUICY FRUITS™** has easy understandable rules with high wins. Some symbols have a golden frame and if these are part of a winning combination, the *Multiplier Feature* will be triggered. The number of matching symbols scattered on screen defines the multiplier for the line win.

In **LINE ACTION** players may choose between the following core games:

Meet the majestic Tiger which acts as the top symbol as well as a two-position high wild symbol in **Golden Jungle™**. Each *Statue* symbol that appears will activate a Wild icon displayed above the reel. Collecting four icons turns the entire reel wild, and it will stay wild for the next three spins (“WILD STAYS 4 PLAYS”).

The beautiful **MERMAID OF THE NILE™** shows players all the sunken treasure chests in the river Nile. Three or more *Ship* symbols appearing on screen trigger the *Sailing Ship Bonus*. During this special free games bonus all *Ship* symbols turn into wild symbols and represent the “Wild Stays and Nudges” feature.
