All games below are included in the CHARMING CARMINE™ game suite!

In **LINE ACTION** players may choose between the following core games:

**WILD WITCH™** features the innovative “Wild Stays Moves and Pays” experience. If the *Witch*, occurs 4-fold stacked it will transform into one big *Witch* symbol, covering all reels and will move one reel to the left in the next purchased game with the same bet option.

With the Wild Flower Selection Feature, players can influence the win frequency and their chance for big wins. The volatility selection and the highly interactive features make **WILD FLOWER™** something special.

Come and join the mysterious journey through the Ancient Aztec Pyramid. **PYRAMID OF THE SUN™** offers SUPER PLAY™ with 243 ways to win. Once the bonus is triggered, the player has to spin the bonus wheel to determine which of the three bonuses will be awarded.

With the help of some magic stardust the fairy princess will appear randomly on screen in **MOONLIGHT MAGIC™** and transform one of the regular symbols on the 1st reel into a golden symbol. These golden symbols trigger the Cloning Symbol Feature.

**DOLPHIN'S MOON™** features the new *Dolphin's Line Bonus*, offering a complete new binding Wild function in the base game and bonus that players will love. Three or more *Chest* symbols trigger 10 free games.

The mayan priestess in **GOLDEN CITY™** guides players through a lush jungle of stacked symbols for a chance at high wins! Symbols occur stacked on all five reels.

In **MOVING MOMENTS™** players can experience the latest innovative *WILD STAYS* feature: “WILD STAYS, MOVES, AND PAYS”, where a stacked wild moves one reel to the right when choosing the same bet option in the next spin.

**CLASSIC SLOTS** features the following traditional volatile, low-line games:

In **BRILLIANT FRUITS™** all wins are paid left to right only. This classic slot game pays the top award for 5 *Diamond* symbols on a payline and has stacked symbols on all reels.

**I LOVE FRUITS™** is another classic slot game with all symbols appearing stacked except the *Heart* symbol. Therefore the game offers good chances for very high wins.

**GAMBLERS' CHOICE** features this top performing game in an extremely volatile version with rich-paying bonus features:

Come and explore the diamond filled cave of **MIGHTY MINER™ EXTREME** where the *Miner* is wild and substitutes for all symbols except scatter.
