The top symbol *King Midas* appears stacked along two positions, is wild and substitutes for all symbols except for the *Temple* symbol.

SPECIALS

GOLDIFY FEATURE

Before the start of the actual game, the player may goldify one of the symbols and hence choose the volatility of the game: The golden *King Midas* symbol is Wild x2. The golden *Temple* symbol triggers the double amount of free games. All other golden symbols pay 5 times the normal award.

STACKED SYMBOLS

All symbols appear stacked on all reels increasing the possibility of very high wins.

BONUS FEATURES

FREE GAMES BONUS

Depending on the number of *Temple* symbols triggering the *Free Games Bonus*, the player will be awarded with the respective number of free games + symbols he can "goldify".

- 3 x *Temple* symbol = 15 free games + 3 symbols to "goldify"
- 4 x *Temple* symbol = 50 free games + 4 symbols to "goldify"
- 5 x *Temple* symbol = 100 free games + 5 symbols to "goldify"

If the trigger *Temple* symbol was already "goldified", the number of free games will be doubled. Free games can be re-triggered up to a maximum number of 600(!) during one session.
