

# BIG SIX

## THE NEXT GENERATION IN STATE-OF-THE-ART GAMING

The Classic BigSix wheel game with a whole new spin. Our BigSix "Wheel of Fortune" gives casinos, racinos, and gaming lounges an affordable way to attract a crowd and bring a new level of excitement to gaming establishments.

# A CASINO CLASSIC WITH A WHOLE NEW SPIN

Interblock's BigSix wheel game is fully automated, so you don't have the overhead costs usually associated with this classic game of chance. Our BigSix mechanical wheel spins automatically at pre-set intervals, and depending on the timer settings and the pace of players placing their bets, up to 150 games can be spun per hour. The BigSix wheel is divided into 54 or 52 segments, each with a symbol. If the pointer stops on a selected symbol, players placing their bets on that symbol win. A variety of pay tables and symbol distribution options enable gaming establishments to manage the odds of winning.

- 5 - 24% hold depending on segments, symbols, and odds
- Up to 50-to-1 maximum odds
- 6 or 7 betting fields/pay tables
- More than 100 Spins/Hour
- State-of-the-Art Play Station options

BigSix is ideal for venues where live, dealer-operated table games are not allowed.
