HOT & WILD™

DR. CASH IS BACK!
AND WILL HEAT UP YOUR CASINO FLOOR...

ATRONIC®
Great Games Great People

HOT & WILD

THE INDUSTRY'S FIRST MULTI LEVEL, MULTI GAME, MULTI HIT PROGRESSIVE LINKED GAMING CONCEPT!

Based on the widely popular CASH FEVER™ link, Dr. CASH returns with exciting new features and even more bonus action. By activating the Bonus Bet, players can double their chances of entering the CASH FEVER Bonus and hitting one or more of the 4 jackpots during the bonus games. The sleek new OXYGEN™ cabinet's multigame selection, combined with an attractive, fully merchandising package, will turn up the heat in any casino.

THE CONCEPT

HOT & WILD's exciting multi-level bonus system acts as a bonus game on top of existing game titles, triggered in the base game by the CASH FEVER symbols. During the bonus, Dr. CASH returns, but this time with an accomplice, the lovely Miss Fever, who helps the doctor heat up the jackpot thermometer and send it soaring to the top progressive award. The OXYGEN cabinet's top wide screen shows the jackpot meter so players can follow the rising mercury during HOT & WILD bonus games. Players will love the multigame function but even more so the combination of selecting their favourite game and the chance to win up to 4 jackpots.

THE PACKAGE

HOT & WILD features an exciting merchandising and signage package that stands out on the casino floor and attracts players to its thrilling 4-level dynamic bonus link. Customised signage and merchandising options are available to suit every venue and budget.

CASH FEVER BONUS

The bonus is triggered by a scattered symbol combination during the base game. The Wild bonus trigger symbol in the core game also increases bonus entry wins. Any bet provides players with the chance to trigger the bonus games and the jackpots, but higher bets in the base game provide better chances at winning. The Bonus Bet activates the HOT Re-Spin, doubling the player's chance of entering the bonus.

Once the bonus is triggered, the player is awarded bonus games played on special reels with unique symbols and an easy-to-follow paytable. All bonus games are played with the same number of lines, bet per line and play modes as the base game that triggered the bonus session. As the bonus games are played, the temperature rises on the HOT & WILD thermometer in the upper screen. subsequently won when a specific temperature is reached during the bonus games giving players the chance to win up to 4 jackpots during one single game! The "hotter" the thermometer, the bigger the jackpot wins.
